

Proposed Rule: Uinta and Ouray Indian Reservation Proposed Federal Implementation Plan for Existing Oil and Natural Gas Well Production Facilities (SAN 5872)

TO: Janet

FROM: Greg

Attached is a proposed rule that establishes federally enforceable requirements for owners and operators of existing oil and natural gas well production facilities to reduce the VOC released during the production (and storage, which is part of production) of hydrocarbon reservoir fluids prior to being transferred off site for sale or treatment.

Ex. 5 - Deliberative Process

Feel free to call me with any questions or if you need additional information.

Thanks.
